1 CESE platform.....	2
2 Stock models.....	2

1. CESE platform

In order to run stock or custom models, users require an installed version of the CESE platform. CESE may be available free of charge to academic users. Please [contact us](#) for further information regarding this opportunity, or for a competitive quotation.

CESE require JDK/JRE version 1.5 (5.0) or above. Visit java.com to download and install Java Runtime for your system.

2. Stock models

We provide a collection of popular electrophysiological models, based upon the [simucore architecture](#), that are ready to run under the CESE platform.

All models can be [ordered](#) via a secure site.

To request custom-designed products, services, and support, please visit our [services](#) or [support](#) pages.
